

FamilySearch

Digital Images & the Catalog

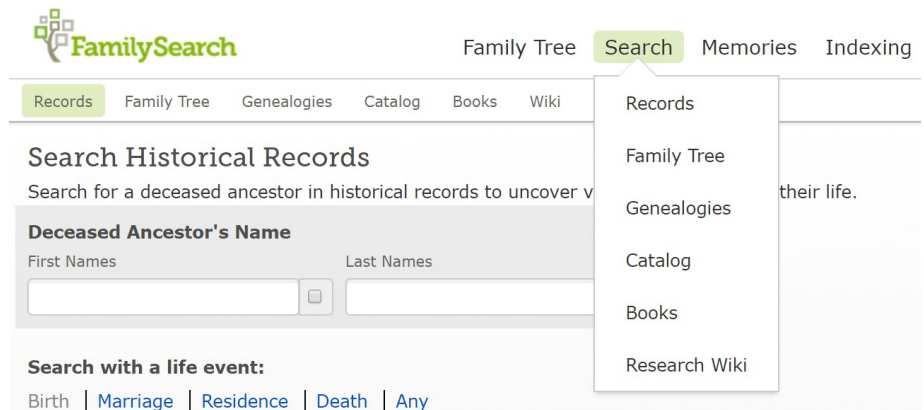

Mary Van Orsdol
 Corona Genealogical Society
 November 6, 2017

Three ways to search for and find digital images on FamilySearch.org under Search tab:

Catalog: complete inventory of the holdings of the Family History Library including all digitized holdings

Records: listing of major digitized collections; this is not a complete listing

Books: includes digital and digitized books and journals from the Family History Library and from fourteen other major genealogy collections.

Five ways to search the FamilySearch Catalog:

Author

Title

Subjects:

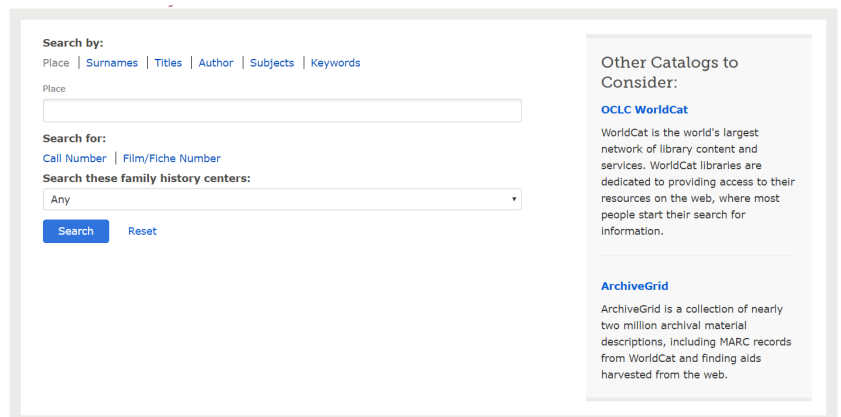

Locality subjects (Places): developed and maintained by FHL

Surnames: authority list developed and maintained by FHL

Library of Congress subjects (Subjects): developed and maintained by Library of Congress

Keywords

Call Number or Film/Fiche Number

About this record

This screen shows the complete catalog entry of the title you selected.

The Film/Digital Notes contain a description of the microfilm or microfiche numbers. Some family history centers and libraries maintain collections of previously loaned microfilms or microfiche. A camera icon indicates items that are digitally available online.

Generally, catalog entries are written in the same language as the original record they describe.

Reasons why microfilms may not yet be available digitally on FamilySearch.org include:

- The microfilm may be scheduled for future scanning.
- The microfilm may have been scanned, but have a contractual, data privacy, or other restriction preventing access. FamilySearch makes every effort to enable access dependent on decisions of record custodians and applicable laws.
